

Talal Abu-Ghazaleh – Confucius Institute

TAG-Confucius Newsletter | Issue 118 - March 2026

TAG-Confucius Institute:

The Institute was established in September 2008 to introduce the Chinese language and culture, as well as achieving a greater mutual understanding between the Arab and Chinese cultures. This unique initiative is based on the cooperation agreement between TAG.Global and Confucius Institute in China. The Institute has been named after the great intellectual, mentor and philosopher, Confucius, whose ideas had influenced China and other regions around the world for over 2,000 years.

TAG-Confucius Institute is the first institute accredited by the Chinese Government to teach Chinese language in Jordan.

TAG-Confucius Institute is holding a new course to teach the basics of the Chinese language for beginners:

A. Threshold Level for Adults: starting 8/2/2026

Schedule: Sunday – Tuesday from 5:30 – 7:30pm.

B. Threshold Level for Kids: starting 7/2/2026

Schedule: Saturday – Tuesday from 3:00 – 4:30 pm

***All Chinese language teachers are from China specialized in teaching Chinese language for foreigners and accredited by the Confucius Institute in China.**

TAG-Confucius Institute Holds Chinese Proficiency Test

On March 22, TAG-Confucius Institute (TAG-CI) successfully held the Chinese Proficiency Test (HSK), covering HSK levels 1 to 5 as well as the HSK Speaking Test for primary, intermediate and advanced levels. A total of 64 students participated in the test. To ensure the smooth running of the test, TAG-CI held a pre-test work meeting to coordinate all arrangements. The teachers were assigned clear responsibilities and worked collaboratively, providing pre-test guidance tailored to students of different levels, helping them familiarize themselves with the test procedures and important considerations, while patiently addressing their questions and concerns.

On the day of the test, the teachers and students arrived at TAG-CI an hour earlier.

Identity verification was conducted through facial recognition, supplemented by manual checks, ensuring that the test was organized in a standardized and orderly manner. During the test, students remained calm and focused, demonstrating excellent composure and a positive spirit.

After the test, many students expressed their sincere gratitude to the teachers for their careful guidance and to the Confucius Institute for its thorough organization. Some students shared their hope of achieving excellent

results in order to apply for the annual International Chinese Language Teacher Scholarship program.

Notably, during the HSK Level 3 test, there was a special student named Mohammad Mousa, who attended the test in a wheelchair. Upon learning of his situation, Chinese Director of TAG-CI, Dr. Yang Songfang, coordinated with Talal Abu-Ghazaleh Global (TAG.Global) to set up a wheelchair-accessible ramp at the entrance and arranged a convenient and comfortable test seat for him. The student's determination

and effort deeply moved the teachers present. On one hand, they were inspired by his perseverance in overcoming physical challenges; on the other hand, they felt more vividly the appeal of learning

Chinese, which continues to motivate more learners to overcome obstacles and pursue their dreams.

TAG-CI will continue to provide high-quality Chinese

language teaching and test services, supporting learners in their academic development, career planning and opportunities for studying in China.

Talal Abu-Ghazaleh Confucius Institute Meets with the Jordanian International School

On 30th March 2026, Talal Abu-Ghazaleh Confucius Institute held a meeting with the administration of the International Jordanian School to explore opportunities for introducing Chinese language education to its students.

The meeting was attended by Dr. Hanaa Abu Rumman, Principal of the International Jordanian School, along with representatives from the Institute, including the Executive Director Mr. Mamoun Abu Al-Sabaa`, Chinese Dean Ms. Yang Songfang and Deputy Manager Ms. Randa Al-Yabroudi.

During the meeting, both parties discussed potential collaboration in developing a structured Chinese language program tailored to students across different grade levels. The discussions also covered curriculum content, the needs of the Chinese teachers at the school, and the incorporation of cultural activities aimed at enhancing students' understanding of the Chinese language and culture.

Representatives of the Institute emphasized the growing global importance of the Chinese language and highlighted the benefits of equipping students with multilingual skills that support their academic and professional futures.

Dr. Hana Abu Rumman praised the effective role of the Institute in teaching the Chinese language, noting that, as the first institute specializing in Chinese language education in Jordan, the school is highly interested in establishing cooperation. She expressed strong confidence in the Institute's academic staff and its management, emphasizing the school's eagerness to build a successful and sustainable partnership.

This meeting marks a significant step toward establishing a strategic partnership between the two institutions, reflecting a shared commitment to educational excellence and global engagement.

Hangzhou

Hangzhou is the capital city and most populous city of Zhejiang province, China, situated at the intersection of the southern terminus of the Grand Canal and the head of Hangzhou Bay. Renowned as one of the Eight Ancient Capitals of China, Hangzhou is celebrated for its cultural heritage and its West Lake, a UNESCO World Heritage site.

Established as a county seat in 221 BC, Hangzhou later served as the capital of the Wuyue Kingdom (923–997) and the Southern Song dynasty (1138–1276). The city has three UNESCO World Heritage Sites, which are the West Lake Cultural Landscape, the Grand Canal, and the Archaeological Ruins of Liangzhu City.

Hangzhou is designated as a sub-provincial city. Hangzhou ranked ninth in GDP among mainland Chinese cities and 14th according to the Global Innovation Index.

The city hosts the headquarters of Alibaba Group, Ant Group, DeepSeek, Geely, and NetEase. According to the Nature Index, it ranks 10th globally in scientific research output.

History

Early history

The celebrated neolithic culture of Hemudu is known to have inhabited Yuyao, 100 km (62 mi) south-east of Hangzhou as far back as seven

thousand years ago. It was during this time that rice was first cultivated in southeast China. [19] Excavations have established that the jade-carving Liangzhu culture (named for its type site just northwest of Hangzhou) inhabited the area immediately around the present city around five thousand years ago. The first of Hangzhou's present neighborhoods to appear in written records was Yuhang, which probably preserves an old Baiyue name.

In 222 BC, the First Emperor of the Qin established Qiantang (錢唐) as a county under the direction of Kuaiji Commandery (now Shaoxing). It was located in the area of the Wulin Mountains and the Wulin Lakes. Under the Han, the same area was known as Wulin (武林).

Hangzhou was made the seat of the prefecture of Hang under the Sui in AD 589, entitling it to a city wall which was constructed two years later. By a longstanding convention also seen in other cities like Guangzhou and Fuzhou, the city took on the name of the area it administered and became known as Hangzhou. Hangzhou was at the southern end of China's Grand Canal which extends to Beijing. The canal evolved over centuries but reached its full length by 609.
