Qatar Opens All Nice Classification Classes for Trade Mark Registration, Including Class 33

DOHA - The Trademark Office has confirmed that, following Qatar's adoption of the 13th edition of the Nice Classification, all classes under the updated classification are now open for trademark registration in Qatar. Accordingly, this would be likely to mean that Class 33 will be accepted for registration, removing the previous limitation on filings in this class.

This change aligns Qatar's trademark system more closely with international practices and gives rights holders clearer scope to protect beverage-related brands. The availability of Class 33 is expected to reduce the reliance on workaround filing strategies previously used to secure protection for certain drink products.

Therefore, we will be pleased to assist you review your filing strategies, specification wording, and any applicable regulatory considerations under Qatari law. Companies with existing registrations may also consider monitoring incoming filings to detect potential conflicts or opportunistic applications.

Finally, as this update would make Qatar join Bahrain and Oman within the GCC region to allow for class 33 trademark registration, we advise our clients who are in the alcoholic beverage business, to consider filing their house mark in Qatar, and upon acceptance, they may consider filing the rest of their trademarks.

Qatar Opens All Nice Classification Classes for Trade Mark Registration, Including Class 33

Bahrain Grants Temporary Three-Month Extension for Submission of Legalized Industrial Property Documents

UAE Trademark Office Allows Extension for Submission of Legalized POAs

Qatar: TM Office Resumes Limited Payments for Select Applications

Bahrain Grants Temporary Three-Month Extension for Submission of Legalized Industrial Property Documents

MANAMA - The Ministry of Industry and Commerce in the Kingdom of Bahrain has announced a temporary three-month extension for applicants seeking industrial property rights. This includes trademarks, patents, utility models, and industrial designs. The extension is granted in response to current exceptional circumstances that may affect applicants' ability to complete notarization and legalization processes on time.

Under this decision, applicants can request an extension of the standard 90-day deadline at no additional cost. They must make a formal request to the Ministry. The extended period allows applicants up to 90 days from the first deadline to finalize notarization and legalization formalities. Failure to complete these procedures within the extended timeframe will result in the application being deemed abandoned.

For more information or inquiries, please contact AGIP Bahrain office at bahrain@agip.com

UAE Trademark Office Allows Extension for Submission of Legalized POAs

DUBAI - The UAE Trademark Office has announced an important update regarding the submission of legalized Powers of Attorney (POA) for trademark applications that include an undertaking. Normally, the POA must be submitted within 90 days from the filing date and this deadline is usually non-extendable. However, due to the current regional situation and challenges with courier services, the Trademark Office will now allow an additional 30-day extension, if needed, for submitting the POA. This extension can be requested by the local agent through an official request without any additional official fees.

AGIP UAE confirms that we will facilitate this service without any professional fees.

Additionally, we want to reassure our clients that all IP services in the UAE are fully operational and continue without any interruption. This ensures that trademark and other intellectual property matters are handled efficiently.

If you have any questions or require assistance with your applications, please do not hesitate to contact us at uae@agip.com

Qatar: TM Office Resumes Limited Payments for Select Applications

DOHA - The Qatari Trademark Office has announced that it will resume accepting payments for a specific set of trademark filings. These include renewals, publications, and registrations with deadlines falling on or before March 17, 2026. The office has made this decision in order to minimize disruptions for rights holders and practitioners during the recent developments in the country.
